

1900-1909 Upper Hutt Residents

The early New Zealand Censuses were destroyed in the 1960s. By using various sources such as Newspaper articles, Electoral Rolls and Directories I have compiled a list of people who resided in the Upper Hutt district between 1900 and 1909. Information covering details and sources used are listed at the end of this document.

<i>Surname</i>	<i>year</i>	<i>Details</i>

Additional Information and sources

The early New Zealand Censuses were destroyed in the 1960s. By using various sources such as Newspaper articles, Electoral Rolls and Directories I have compiled a list of people who resided in the Upper Hutt district between 1900 and 1909. Information covering the sources used is listed below.

Some details were taken from the 1904 Stones Directory. It records the names of people who dwelled in the Upper Hutt region. The different areas are [1] Akatarawa [3] Hutt (Upper) [4] Kaitoke [5] Mungaroa [7] Silverstream [10] Trentham [12] Wallaceville.

Hutt Valley Independent newspaper 01 August 1914

Peeps into the Past – Upper Hutt Progress - A Census of Upper Hutt households was taken in 1907 for purpose of forming a township. The recorded population for December 1907 was 774 and April 1911 was 1050 (area two square miles). The figures are the numbers of persons then in the household are recorded below along with the heads occupation.

(Reference National Library of New Zealand Papers past website Hutt Valley Independent newspaper 01 August 1914 page 3)

By using the list above and recording the surnames, occupation and numbers dwelling with householder as quoted in the newspaper article I was able to partially reconstruct the Upper Hutt

residents for the period 1900-1909. This is the closest I can get to the 774 souls on the 1907 census. It will not include everyone residing in the Upper Hutt district.
