

1929 TRENTHAM MANOEUVRE MAP UPPER HUTT

Land owners, occupiers, streets, districts, businesses, buildings from Map transcriptions

The map was reprinted to commemorate the relocation of the Map Centre from Wellington to Upper Hutt and the establishment of the Department of Survey and Land Information on 01 April 1987. The Map centre closed many years ago. Copies of the map are located at Upper Hutt City Archives and the New Zealand Defence Force Map Library, Trentham Military Camp Upper Hutt New Zealand.

Originally published in 1929 the map was used for military exercises in the Upper Hutt area. Distinctive design features are a metric grid and the personalised lettering styles characteristic of maps produced at the time. The reproduction was photographed from the original colour separations that were drawn on paper and is printed at the reduced scale of 1:25,000 using modern printing inks to match the original hues.

The map is divided into numbered grids (15x11). Recorded within these grids are the initials and surname of the land owners and/or occupiers. The map also notes schools, churches, businesses, buildings and names of places within the Upper Hutt District.

I have created below a table showing the grids on the map and their recorded numbers. Unfortunately some of the numbers are repeated.

[3] The names of the roads that existed in Upper Hutt district before 1929

I have identified the names of the roads drawn on the map that existence in Upper Hutt before 1929. Followed by researching the 1928 Wairarapa Electoral Roll (Wellington, Manawatu, Wanganui, Hawkes Bay Regions) to match some of the Roads in the Upper Hutt district. This research is to assist in identify when the roads were established and who the developers were.
