I have to acknowledge receipt of yours dated 9th I find that it was Mr Fitzgerald who made the deviation from the NZ Company's plan, when the track was first cut through this district and the peg of No 2 line was placed at the present road instead of on the road as shown in NZ Company maps at the time my father purchased No 89 he was informed that the present road would be the boundary and that the difference in No 95 would be made up as it was only the matter of an acre or so consequently my father let portion of 89 and this piece at the same time to Hall now the man who has been occupying No 95 being an absentee section has taken possession of the piece, which Hall was renting, consequently puts me in a very curious position besides being a great annoyance.

I observe also that a small portion of No 96 accompanying to the present road is on this side and takes away the frontage from the house

I remain
Yours very truly
Richard Barton

Mr Holdsworth

Dear Sir

Thanks for the perusal of the reply of Mr Barton to your semi-official letter. My long acquaintance and intimate knowledge of him would preclude my doubting the statements contained in his note, but the absence of documentary evidence in proof of his assertions, would not justify me, as Comp. I appreciate (without mitigating circumstances) throwing upon the Govt the responsibility as an adverse Claimant preferring compensation for an alleged injury. In his case however, as presents I admit these circumstances do exist.

When I gave the direction in 1866 to suspend the delivery of the grant to Barton pending an investigation about to take place into the title of the alleged owners of the land in dispute, it was understood that no unreasonable delay was to take place. Nearly four years has now elapsed since the case was bought under my notice, and up to the present time no steps have been taken to refer any Claim under the provisions of the New Z Coy Land Claimants Ordinance.

I have taken some pains in reviewing and examining the merits of this case from the evidence in my possession and have come to the decision that Mr Barton should no longer be deprived from exercising his right to the land included in the Grant issued to his father under the Report of my predecessor in office. The laches [sic perhaps lessees] of the alleged owners of the disputed land will in my opinion be a justification of my arriving at this conclusion. So far therefore as I am concerned, please inform Mr Barton that I shall offer no further opposition to the delivery of the lands to him granted in favour of his father the late Mr Richards Barton for the Section No 89 Upper Hutt.

1911- Mawaihokona Township Section 95 [No maps or plans in this set of records]

- 05 January 1911 from Department of Lands to Surveyor General Mawaihokona Township I beg to forward herewith for approval of the Governor the above subdivision of Crown Lands

made to meet an expected demand in connection with the contiguous Race Course at Trentham week end population and requirements and local requirements near Upper Hutt which is about 2 miles away. A school is in existence nearby and we are giving land for another less than a mile away while the bulk of the population being at Upper Hutt the local Recreation Grounds will serve (they are however on private ground) and a Reserve for that purpose here does not seem to be necessary in view of the local conditions it would in any case absorb the larger sections especially provided for the local demand for room for racing stables etc., The Gravel Reserve show will I think meet all requirements and the scheme has been carefully fitted to the ground and the probable demand by the Surveyor and Ranger
