

Sections and Owners – Upper Hutt District

This is a work in progress document

This document was created to record when the land was surveyed into sections. The sections were then divided into lot numbers and later given DP numbers. These land description references are still in use today so in time we will be able to trace the early owners of the sections and the current owners.

Section numbers were firstly transcribed from the Hutt Valley map situated on the wall at the Hutt City Archives. Further information will be transcribed from Crown Grant records and other Government records held at Archives New Zealand, local Hutt City Archives and Upper Hutt City Council records.
