Sir

I beg to request your attention to the circumstances of three of your people **Lange, Huter** and **Stade**, one of whom represents to me that he had **seven children** to maintain (Lange/Sixtus). All three assert that they are without the necessary means of subsistence, and that they have in vain requested employment from you. I take this opportunity to remind you that I have already invited you to point out any way in which I can with propriety facilitate your carrying into some immediate execution the intentions of Chapeaurouge & CO in reference to the **German Immigrants**, and if the Suburban Sections already delivered are not all sufficiently eligible for immediate cultivation, that I could probable make arrangements to enable you to select a Rural Section at Choice No 4.

Sir

I beg to enclose copies of a correspondence between Mr **Beit** and myself relative to the German Immigrants in this Settlement. I find in the office here very little information respecting them, or the intention of the Company with regard to them. My impression, as expressed in the enclosed correspondence, has been since confirmed by Mr Dillon **Bell**, who is ignorant of the Company lying under any obligation to maintain or employ them. Mr **Beit** having however so distinctly disclaimed any such obligation on his part, and having unfortunately suffered serious misunderstandings to arise between himself and them which preclude the possibility of his being useful to them if he processed the inclination, I have felt it necessary to take some of them into the employment of the Company upon the public works.

I have to inform you that I have been obliged to dispense with the services of Mr **Smith** the Storekeeper to the New Zealand Company in this Settlement and have appointed Mr **Alexander Wilson** his successor in office.

A very short acquaintance with Mr **Smith** satisfied me with the impropriety of continuing him in the Companies employment and I should have discharged him several weeks ago had it not been that the accounts relating to his department were in a very imperfect state and many particulars such as he alone could supply from personal

Sir

I beg to enclose a correspondence which has recently passed between Mr J N **Beit** in the character of Immigration Agent for Germany and myself, from which you will perceive that I have been compelled to intimate to that gentleman, that I cannot for the future receive any communication from him in the above capacity, and that as far as it may be within the scope of my own authority, I have determined his employment as Immigration Agent for Germany, from the 1<sup>st</sup> June 1844.

The correspondence itself is sufficiently explanatory of the grounds on which I have acted, to render any comment unnecessary on that head

head. With regard to the questions contained in my letter to Mr **Beit**, dated 28<sup>th</sup> May 1844, which appear to have induced him to use the disrespectful expressions in his subsequent letters. I have to observe that the two first are questions, which I have been in the habit of putting either to the English Immigration Agent, or to the applicants for employment themselves, in all cases where the latter had been in private employment previous to their applying to me. In the present instance they were particularly necessary, as I had received four recent applications for employment, from labourers, who informed me that Mr **Beit** was indebted to them for several weeks' wages, their inability to get which was the cause of their applying for the Company employment. The third question relative to **Bushels** private means I put in consequence of his having informed me that he had paid a considerable sum of money into

Into Mr **Beit's** hands in Hamburg to be repaid in the Colony, no part of which he had since received, and which if he could have obtained, he would not have been obliged to apply to the Company for employment.

Mr Beit to Mr Fox  
Nelson 25 May 1844

Sir

The Bearer Mr **Buschel** has been located for some time on our land in the Waimea, & entirely supported by us, in expectation to render him useful in our intended farming establishment there.

The proceedings of the Company officers, having in defiance of the positive engagement of the Company to their Land Purchasers, render labour for wages impracticable, we have been reluctantly compelled if not entirely to abandon, at least indefinitely to postpone, any considerable operations, and in consequence I have announced to **Buschel** that from the 16<sup>th</sup> Inst. I could only give him some employment in my family establishment here. **Buschel** has cultivated some portion of land on our sections, and is desirous to continue there but has no means of subsistence. He claims now to be admitted to the same privilege as his neighbours on Section 34 S.W. to be employed by the Company on the Public works and on similar terms.

However strongly I may condemn the course pursued by the Company Agents I am of opinion that such a deserving man as **Buschel** is fully entitled

1. For what rate of wages has he been working hitherto
2. Have his employers paid him all wages earned by him, or is any money due to him from them
3. Had he any means on his arrival in the Colony, and if so, how has he expended or invested them

In reply to your letter of this day, requiring information on the points proposed by you, previous to your affording the Immigrant Mr **Buschel**, the employment & c. & c. to which I have upon my responsibility declared him entitled, I must decline answering any impertinent questions.

It is for me, as the appointed Immigration Agent, to investigate the claims of those who apply for assistance, and my recommendations is sufficient warrant for you to afford the required relief. Should you however think proper to withhold it. It will suffice that you acquaint me officially with that fact, with or without the reason you may have for so doing.

He pointed out to me, that the expression of my opinion respecting the proceedings of the Coy. Your tardy and querulous reply of the 28<sup>th</sup> appeared to me, not only an undue interference, with the special duties of my appointment, but under concomitant circumstances, and the information already supplied in the recommendation above allowed to, as an intended and gratuitous insult. Nelson 4<sup>th</sup> September 1844

Sir

I have the honor to report to you for the information of the Court of Directors of the Company that the "Skiold" 500 Tons arrived here safely on the 1<sup>st</sup> inst. From Hamburg. Amongst 140 emigrants on board there had occurred two deaths of infants and two births. The men evince a decided superiority over those who came last year in the "St Pauli".

Mr **Beit** waited on me in company with Mr **Benoit** who is The Secretary of the New Zealand Company in charge of the emigrants by the "Skiold" and I offered the latter every assistance in the power of the Company officers to afford, to secure the comfort of those entrusted to his care and a profitable occupation of land by them. At the same time I informed Mr **Beit** that I could no longer recognise him as the German Immigration Agent or communicate with Mr **Benoit** through him in that capacity. On the following day Mr **Benoit** wrote to me to say that "Under existing circumstances and after mature deliberation with his partners he could not come to any determination relative to his proceedings and should therefore defer availing himself of my offers of assistance until his plans were more matured." Upon a further knowledge, however, of the state of things here. Mr **Benoit** as decided on acting entirely for himself with respect to the disembarking and locating the immigrants without being influenced by Mr **Beit**, (who talked of the ship proceeding forthwith to Auckland under his direction) and I have now the satisfaction of informing you that they will be located on the 7 sections of land at the Waimea East allotted by exchange according to the arrangements made between Messrs Chapeaurouge and the Court of Directors, subject to a further partial exchange in case some of the land may be found totally unavailable for agriculture. Should any such necessity occur the Resident Agent will apprise you of the steps he adopted in the selection of the land for these immigrants has been most fortunate. Its vicinity to the Town and the communication therewith by good roads combined with its proximity to the sections of several settlers, who have provided the quality and powers of the soil and with the intention of Mr **Duppa**, Mr **Saxton**, Mr **Macdonald**, Dr **MacShane** and other settlers to cultivate land in the same district render it much sought after just now.

As the German immigrants have a supply of provisions for more than twelve months, I have no doubt of their forming a thriving community to which will be attracted their countrymen who came here last year and who have been unfortunate in the selection of land in the Moutere, where their labours have been almost nugatory in consequence of its liability to inundation's and the poorness of its soil.

I have the honor to be Sir

Reference Report to the NZ Company W Wakefield by Frederick Tuckett 03 July 1843 NZC Series 104 Item 3 Page 121

"Regret to have to inform you that the German Emigrants have arrived here in a state of extreme discontent owing to alleged acts of dispondum on the part of Mr **Beit** and infringement of the proposed arrangements promised for their maintenance and comfort. The Captain, Officers, Crew, the two Missionaries and Surgeon are all unanimous on the infauting the entose blame to Mr **Beit** on the other hand the ground of complain which they represent to have existed even prior to the ships sailing were investigated by the British Consul at Bahai and evidently are regarded by him as frivolous and grievances complained of an behalf of the emigrants by the Clergyman and Doctor are stated under three heads over the non observance of the regulations in regard to the quantity and variety of food appointed to be supplied to the peoples. The insufficiency of the space between decks for numbers in consequence of a larger quantity of merchandise the property of Mr Beit having been stored there contrary to the arrangements made by the company Inspector of emigrant ships and after his departure. Arbitrary conduct of the superintendent Mr Beit in imposing fines and subjecting individuals by way of punishment for alleged offences to put raced D of bread and water. Cash general charges it is stated by a recital of particular instance as a whole document which would be conturous to pursue but for its painful and pernciou effect in creating a deep wotect antupatty in b their beats towards their agent. A body of the emigrants have called on me to investigate their grievances and have declared that they will not continue under the author of Mr Beit. I anmued them of my reading to receive any statement provthen in writing which they might wish to make to give it an inpartial comderta and lay it behalf you or you arrival but that I could on intest myself in any arrangments which might be desirable to punish their in lots us solonists at this settlement there accordited again and Agent Mr Beit Some offence had been uninterntance given to Mr Beit inconguence of our Emigration Agent entourin an the usual investergation and taking charge of the emigrant or lance as uncombeust on him in the case of **BUSCH** Emmigrants. I have prevented any forth misunderstanding by informing our Emigrant Agent that the German Emigrants are exclusively under the care of their agent Mr **Beit** I have invited Mr **Beit** in his capacity of Superintendent to furnish me with the necessary statements of arrangement made by him during the voyage which he promised me and the fortnight having expired since boudry during which they have subsited in rations under from our stores. I have pressed Mr **Beit** to ether or arrangements for the future and tto explain to me this and their wishes and intentions especial as regards them future presents and location offing every facility

in my power to afford them and in pastuder and oppitunity of immediately selecting a rural section for their choice No 4 which has fallen to the Hamburg Company. Regret however to inform you that Mr Beit seems extremelly occupied with merchant affairs. Should any unforeseen circumstance prevent your departure for our settlement will you instruct me whether I am right in concluding that the German Emigrants have no claim for maintenance on employment out of the general fund at this settlement and no particular fund for their benefit arrary out of the purchase of land made by the Hamburg Company.

I feel that many of our townsmen are willing to breach between the Superintendent and the Emigrants all sorry themselves to become preoccupied partisans of the latter and that under Mr Beit promptly exits himself in a fayining and concilaty spirt to again his lessner influence with his country men the inaquity of these who have the means and who are consequally desiable settlers will by arrangement with the Captain of the St Pauli proceed elsewhere.

Copy letter from the British Consulate in Bahia

24 March 1843

The Clergymen Fredere **Riemenschneider** & Joh. F H **Wohlens** and the Doctor J F **Goders** accompanying the German Emigrants on board the Hamburg ship St Pauli to New Zealand have approached me in writing & particularity requesting me to inform you by letter that great discontent had prevailed among the said Emigrants during the voyage to this Post, occasioned they say by the departure from the regulation & parish dietary Table placed in their hands by the Agent of the NZC of Hamburg previous to their embarkation. Likewise that much unconvinced has been expressed by them in consequence of their luggage & provisions being stored between decks.

The consequence of this statement can be ascertained on the arrival in Nelson should you consider it necessary.

I likewise acquaint you to the bequest was made to me by the Superintend for a survey what I granted authenticated copies of: report there upon in takes with him.

It is stated to me by the Superintendent that beneficed alteration have been made here in the storage of luggage & provisions and that it is his intention to adopt a far as in practable the issue of rations in accordance with the table above attend to.

NZC Series 3 Item 13 Page 225 15 July 1843

You are right in concluding that the German immigrants have no claim for maintenance or employment out of the emigration fund of the settlement. At the same time it is advisable that they should not be induced to leave Nelson for want of employment or to fall into destitution. I hope that the selection of the rural section which has fallen to the German Company will be able to induce those who have means self support to commence their contemplated operations on the land.
